

## Functional Application Specialist 3DX Configuration Management

For our client in Schiedam we are hiring a **Functional Application Specialist 3DX Configuration Management**.

### Job description

As a Functional Application Specialist in 3DX Configuration Management, you will take the lead in developing and designing engineering functionalities within our Product Lifecycle Management (PLM) platform, with a particular focus on the 3DExperience (3DX) platform. Your role will be instrumental in improving the efficiency and effectiveness of our engineering processes, driving significant value in our projects.

Key Responsibilities:

- ✓ Translate engineering business processes into clear and actionable functional specifications for the application.
- ✓ Collaborate with stakeholders to identify and analyze issues, developing effective solutions.
- ✓ Design and implement application processes to optimize system performance.
- ✓ Build and maintain relationships with suppliers and knowledge partners to ensure continuous improvement.
- ✓ Oversee the integration of various applications and manage user rights within the system.
- ✓ Coordinate and organize application-specific training sessions in collaboration with the Engineering Support Manager.
- ✓ Offer functional support to PLM/CAD users to ensure smooth operation of the platform.
- ✓ Create and update training materials, guides, and application documentation, including user manuals and best practice tips.

### Your qualifications

- ✓ A Bachelor's degree in Engineering, preferably in shipbuilding or mechanical engineering.
- ✓ Proficiency with the Dassault 3DExperience (3DX) platform.
- ✓ Strong knowledge of PLM principles and functional application management.
- ✓ Excellent command of the English language; proficiency in Dutch is a plus.
- ✓ Willingness to work regularly from our office in Vlissingen.
- ✓ Strong references, as a security screening is part of the hiring process.
- ✓ Permanent EU citizenship and passport are mandatory. Candidates with an EU (work) visa or dual nationality (EU and non-EU) will not be eligible, due to the nature of our military-related projects.
