

IT Project Manager MES Implementation (Interim)

Voor onze klant in Zeeland zijn we op zoek naar een **IT Project Manager**.

Job description

As the IT Project Manager, you will oversee the seamless implementation of MES, ensuring full integration with Product Lifecycle Management (PLM) to enhance efficiency and digital continuity across engineering, production, and logistics. You will work closely with internal stakeholders to define system requirements, optimize business processes, and drive the adoption of innovative digital solutions. Managing stakeholder awareness and business change adoption will be a key aspect of your role.

Your qualifications

KEY ACCOUNTABILITIES

Deliver the successful implementation of the MES solution according to set KPIs with continuous stakeholder engagement.

Create detailed forecasts based on necessary resources—budget, timelines, and external resources—to validate proposals and define KPIs.

Define required capabilities over the project timeline and assign (external) project members accordingly.

Proactively monitor and mitigate risks that threaten project success.

Identify and manage dependencies with other projects for seamless integration and execution.

Report key metrics to stakeholders on project status, development, risks, and issues.

Advise and support improvements in project (portfolio) management.

SKILLS & EXPERIENCE

5+ years of experience in PLM implementation within manufacturing, ideally in shipbuilding or complex low-series production

Experienced in leading the implementation of a MOM/MES solution from a top-tier Gartner Magic Quadrant provider (Preferred: Dassault Apriso).

Expertise in manufacturing digitalization, including MOM/MES, PLM, ERP, and shop-floor system integration.

Understanding of supply-chain related challenges within a MES/MOM context.

Knowledge of Bill of Process, Bill of Information, Bill of Materials, and Assembly driven thinking.

Strong ability to connect IT, engineering, and manufacturing, ensuring smooth cross-functional collaboration.

Excellent references, as a security screening is part of the hiring process.
