

Project Engineer Construction

For our client in Noord-Holland we are hiring a **Project Engineer Construction**.

Job description

As a Project Engineer Construction, you will be responsible for overseeing a specific discipline's scope within a project, leading a team and managing the scope, timeline, and budget. Your focus will be on ensuring high-quality design, compliance with regulations, and coordination with other disciplines. You will contribute to the department's growth by mentoring colleagues and driving innovation.

Key Responsibilities:

- ✓ Ensure compliance with specifications, regulations, and requirements.
- ✓ Collaborate with other disciplines to assess manufacturability and feasibility.
- ✓ Support the Project Manager Engineering (PME) in defining and managing the project scope.
- ✓ Approve designs, resolve technical issues, and ensure adherence to relevant regulations.
- ✓ Identify technical bottlenecks and propose solutions.
- ✓ Guide and mentor engineers, ensuring quality control of all project documentation.
- ✓ Participate in site and customer meetings, ensuring alignment with their expectations.
- ✓ Coordinate work within the engineering team and with subcontractors.
- ✓ Monitor the project's progress and update the PME on developments.
- ✓ Liaise with suppliers and production teams for feedback and equipment interface details.

Your qualifications

- ✓ Experience in yacht building preferred.
- ✓ Knowledge of Team Center NX is a plus.
- ✓ Fluent in English.
