

Project Quality Assurance Lead (Dutch speaking)

For our client in Schiedam we are hiring a **Project Quality Assurance Lead (Dutch speaking)**.

Job description

As the Project Quality Assurance Lead (Dutch speaking), you will oversee and refine the quality assurance (QA) processes for large-scale shipbuilding projects. You will be responsible for monitoring, advising, and reporting on quality matters throughout the project lifecycle. When quality deviations occur, you will lead root-cause analysis efforts and work to update the quality standards and policies to prevent future issues.

Key Responsibilities

- ✓ Drive quality assurance processes and promote a culture of quality throughout the project.
- ✓ Ensure all quality management systems, procedures, and standards are applied correctly.
- ✓ Lead and manage the Project Quality team.
- ✓ Develop and maintain the QA documentation system, ensuring all records are complete and up-to-date.
- ✓ Participate in project and department meetings to track progress and report on quality issues.
- ✓ Provide regular updates to project management on quality performance and risk mitigation.
- ✓ Work closely with external Quality Assurance Representatives to share relevant QA information.

Your qualifications

- ✓ A minimum of 3 years of experience in quality management, ideally within the naval, defense, or shipbuilding sectors.
- ✓ Familiarity with manufacturing techniques and processes, preferably in naval shipbuilding.
- ✓ Bachelor's or Master's degree in a relevant technical field such as Business Administration, Maritime Technology, or Shipbuilding.
- ✓ Fluent in both Dutch and English, with excellent written and verbal communication skills.
- ✓ A strong professional background with positive references, as pre-employment security screening is a standard procedure.
- ✓ Candidates must have permanent EU citizenship and a valid EU passport. Candidates holding only an EU work visa or possessing both EU and non-EU nationality/passport cannot be considered due to specific security clearance requirements related to the nature of the projects.
