

Senior Planning Engineer

For our client in Antwerp we are hiring a **Senior Planning Engineer**.

Job description

We are looking for a Senior Planning Engineer to be assigned to Antwerp for a new petrochemical complex in execution phase.

- ✓ Support Construction Manager for all planning related issues
- ✓ Update and further develop (if needed) detailed level 3 construction schedule of projects already prepared in Home Office
- ✓ Further develop Level 4 Construction schedules for critical works in liaison with subcontractors
- ✓ Establish Progress system for Construction works and monitor it on a weekly basis
- ✓ Record manhours expenditure and site presence (blue and white collars)
- ✓ Consolidate Progress curves for Construction works based on above schedule and progress system
- ✓ Attendance of Construction progress meetings with Subcontractors
- ✓ Attend Meeting with Client whenever required
- ✓ Measure and make trends of construction productivity rates
- ✓ Prepare weekly / monthly reports as required
- ✓ Leading planning workshop / session with subcontractors and client
- ✓ Steer Subcontractor's execution in view of schedule criticalities analyzing "Free" and "Total" Floats
- ✓ Perform "what-if" analysis to advise project team with respect to most suitable solutions to be pursued from a timeline perspective

Your qualifications

- ✓ Excellent relational skills
- ✓ Proven experience in Oil&Gas / petrochemical construction works (civil background is a plus)
- ✓ Mandatory Oracle Primavera P6 ability
- ✓ Database management (full proficiency of MS Office's suite - Excel vlookup, pivot tables are a must to know)
- ✓ Familiarity with Material management and Construction management systems
- ✓ English fluency
- ✓ Problem solving attitude
- ✓ Ability to work autonomously
