

## Site Cost Engineer

For one of our customers in Antwerp Belgium, we are in search for a **Site Cost Engineer**.

### Job description

- ✓ The Site Construction Cost Engineer will manage and provide cost engineering services to control the construction costs.
- ✓ It is expected that regular rapid, transparent communication of project cost at completion, forecasting cash flow requirements, and general reimbursable cost management of the EPCm Contractor(s) is maintained.
- ✓ Application of cost procedures and work processes for cost control; including monitoring change and their impact, Key Performance Indicator (KPI) reporting.
- ✓ The Site Cost Engineer works under the guidance of the lead cost engineer of the project.
- ✓ Assist the Lead cost engineer & site Project Controls Manager in ad hoc project controls duties as required.
- ✓ Work together with the company construction management team.
- ✓ Ensure that all construction costs incurred are included in the total project cost and in line with the Work Breakdown Structure, following company Code of Accounts.
- ✓ Report expenditure and commitments against the approved Control Budget and ensure trends and any forecast impacts are defined and where possible mitigated.
- ✓ Interface with the EPCm contractor and construction contractors and ensure cost data information and KPIs are being performed in accordance with the contract.
- ✓ Ensure management of change documentation, whether from EPCm Contractor or internally, is properly completed and cost impacts are defined and mitigated where possible.
- ✓ Support the auditing efforts by the banker's engineers chartered by the external financing institutions.
- ✓ No supervision of staff is expected.

### Your qualifications

- ✓ A bachelor's degree in a technical discipline, or equivalent, is preferred but not essential, depending on experience.
- ✓ A minimum of 5-10 years' experience in a process industry production and/or engineering environment with large (>\$100MM) capital project management experience. Mega-project experience (>\$1000MM) is preferred.
- ✓ Site experience strongly preferred.
- ✓ Experience in managing civil and other construction contractors is beneficial.
- ✓ Thorough working knowledge of Project Controls practices.
- ✓ Knowledge of EcoSys is preferred.
- ✓ English is compulsory, Dutch is an advantage but not compulsory.
