

Team Lead Automation

For a company in Vlissingen area, we are looking for a **Team Lead Automation**.

Job description

- ✓ As the Team Lead Automation, you'll oversee the automation engineering aspect of our projects.
- ✓ From the initial proposal phase through project execution, you'll establish robust work breakdown structures and lead a team of (Senior) Automation Engineers to ensure timely delivery and quality output.
- ✓ Reporting to the Project Manager Engineering, you'll play a crucial role in project success.
- ✓ Lead a small to mid-sized Electrical & Automation engineering team.
- ✓ Coach the team to adhere to internal standards.
- ✓ Develop work breakdown structures and allocate resources effectively.
- ✓ Ensure timely delivery of quality engineering work.
- ✓ Manage vendors and subcontractors.
- ✓ Conduct design checks and reviews.
- ✓ Analyze technical offers in collaboration with the Purchase department.
- ✓ Monitor and control project budgets.
- ✓ Coordinate technical support and commissioning activities.
- ✓ Ensure compliance with class and customer specifications.

Your qualifications

- ✓ Minimum five years of experience in designing electrical & automation systems in shipbuilding, offshore, or industrial installations.
- ✓ Experience in large project environments with high complexity.
- ✓ Leadership experience with engineering teams.
- ✓ Bachelor or Master's degree in relevant technical discipline.
- ✓ Project Management skills.
- ✓ Familiarity with class-regulated products and Good Engineering Practices.
- ✓ Excellent English language skills, German proficiency is advantageous.
- ✓ Permanent EU citizenship required.
