

Test Coordinator Piping

For our client in Antwerp we are hiring a **Test Coordinator Piping**.

Job description

As Test Coordinator Piping, you will guarantee the quality of Piping projects by ensuring that installations meet the agreed quality requirements. This is done by coordinating and performing various tests, organising test processes and managing the test team. As Test Coordinator, you'll have an important role in this with regard to checking and assessing test results, identifying and resolving any errors and supporting the safe commissioning of installations.

Your duties include:

- ✓ Drafting test plans and documents
- ✓ Organising and coordinating pre-tests
- ✓ Attending and performing tests
- ✓ Managing and supervising the test team
- ✓ Contributing actively within the project team and coordinating the test phase
- ✓ Reviewing designs, conversion plans and contingency arrangements for consistency
- ✓ Analysing and documenting test results and monitoring quality standards
- ✓ Supporting user tests and commissioning

Your qualifications

- ✓ You have a Bachelor working and thinking level
- ✓ You have extensive work experience in the petrochemical industry and in coordinating of tests
- ✓ You have extensive field experience and have good communication skills
- ✓ Critical in assessing the delivered test results
- ✓ You are able to work independently but can also work well in teams
- ✓ You can solve challenges through creativity, cooperation or perseverance
