

Maintenance Planner

For a client in Terneuzen we are looking for a **Maintenance Planner**.

Vacature omschrijving

Creates job packages from the work order scope which contains all of the information regarding required labor material and services to ensure safe, effective and efficient execution of the work. Requires broadened technical skills in analytical/scientific methods or operational processes to perform a defined array of activities.

Responsibilities

- ✓ Uses feedback from the person doing the work to optimize the work plans.
- ✓ Reviews work orders for technical completeness and returns work orders to gatekeeper, if not complete.
- ✓ Carries out field checks, when needed.
- ✓ Prepares job package indicating the required resources, materials, and services.
- ✓ Identifies task activities necessary to execute job plan, and identifies materials/tools/equipment required to perform tasks.
- ✓ Identifies/solicits safety information and requirements necessary to safely perform tasks.
- ✓ Supports Maintenance Procedure Use Policy by ensuring all job packages include a procedure or the task is on the Procedure Exemption list before the job package is released.
- ✓ Checks that all Maintenance Procedures include a hazard assessment.

Je profiel

- ✓ Minimum of MBO 4 with technical education mechanical engineering, or other technical education.
- ✓ You have several years of relevant experience, for example in maintenance at different plants or worked in different turnarounds.
- ✓ Fluent in the Dutch language and knowledgeable in English.
- ✓ Knowledge of SAP and Microsoft Office, including Word, Excel and Outlook.
