

## Overall Primavera planner

For our client in Zeeland we are searching for an **Overall Primavera planner**

### Vacature omschrijving

Coordinates data inputs from the various disciplines and functions to ensure accurate forecasts and reporting of schedule. Supports establishment of overall schedule baseline and reporting to monitor and control the project within established baseline tolerances. Engages key stakeholders to understand causes of the deviation and the need to establish actions to mitigate, when deviations occur. Requires full proficiency in a range of technical, operational, or analytical/scientific processes and procedures through job-related training and considerable on the job experience to perform a variety of work assignments.

Responsibilities and tasks of the Overall Primavera Planner are:

- ✓ Develops schedule management plans for project and/or turnarounds.
- ✓ Develops and maintains comprehensive integrated master project schedule during the project/turnaround, monitoring progress and incorporating modifications where changes in the original scope occur or delays are encountered.
- ✓ Performs staffing density checks or staffing limitation checks to validate schedule durations and ensures resource-leveling supports the project strategy.
- ✓ Leads project teams in forecasting schedule challenges and offers analyses and solutions to complete the project on schedule.
- ✓ Utilizes project cost estimates to resource load project schedules to gain alignment with estimated scope. Works with cost management to gain alignment when forecasting schedule completion dates.
- ✓ Performs critical path analysis to determine problem areas regarding project schedule and resource overloads and offers alternative courses of action to the project team.
- ✓ Evaluates project deviations to assess schedule impact for proper decision making and recovery plans.
- ✓ Defines comprehensive Schedule Management solutions for capital, expense and turnaround projects.

### Je profiel
